

The Sato Savings Plan

Regular Hygiene - \$456

About the Plan

The Sato Savings Plan (SSP) is an in-house savings plan for those without dental insurance. It is a way to help make maintaining a beautiful smile and complete oral health more affordable. It is NOT dental insurance, but it is a way to help you save on every dental procedure you may need for the next year.

How it Works

When signing up for the plan, you are paying for your routine dental cleanings, exams, and x-rays for the entire year. In doing this you save over 15% on those services, as well as 15% off any other treatment in our office during that year. There are no benefit maximums, no waiting periods, no coverage denials, and no "insurance estimates" to wait on before treatment. From the time you enroll, you save!

What the SSP Covers:

- 2 Healthy-mouth, preventative (or prophylactic) cleanings
- Any regular dental exams
- A periodontal evaluation and oral cancer screening
- Any routine X-rays
- One emergency exam and X-ray
- Home care supplies

These services would normally range from \$650 to \$728 (depending on the type of exams and/or X-rays needed)

What you also get:

15% off all other treatment for the year:

- A third or fourth cleaning for the year (recommended for many patients)
- Restorative work like fillings, crowns, or bridges
- Cosmetic treatments like veneers
- Periodontal treatment (gum therapy)

The Sato Saving Plan cost: \$456
